25 September 1950

MEMORANDUM FOR: CHIEF, TRAINING DIVISION

SUBJECT: Investigative Techniques Training Courses

1. In line with a reorganization of Investigative Techniques Training, the two formalized courses conducted by the section have been revised according to the attached outlines.

2. The revision has been guided by your oral directive concerning the duration of the courses and by the written directive of 18 August 1950 established for the Chief Instructor, Investigative Techniques Training Section, by the Chief, Staff Training Branch, and approved by the Joint Training Committee.

3. The Investigative Techniques Course has undergone major changes in content, methods, slant, and emphasis. The inclusion of several operational lectures discussing the use of investigative techniques in clandestine operations of CIA should present another improvement. It is planned to conduct this course for the first time starting 9 October 1950.

4. Arrangements are made to insure that the plans for the courses as scheduled in the attached outlines are effectively implemented.

5. In the future, Staff Training Branch intends to periodically disseminate the outlines for both courses to divisions and staffs concerned.

6. Any comments and suggestions will be appreciated.

Chief, Staff Training Branch
